Severe Weather Outlook Thursday, April 28, 2022

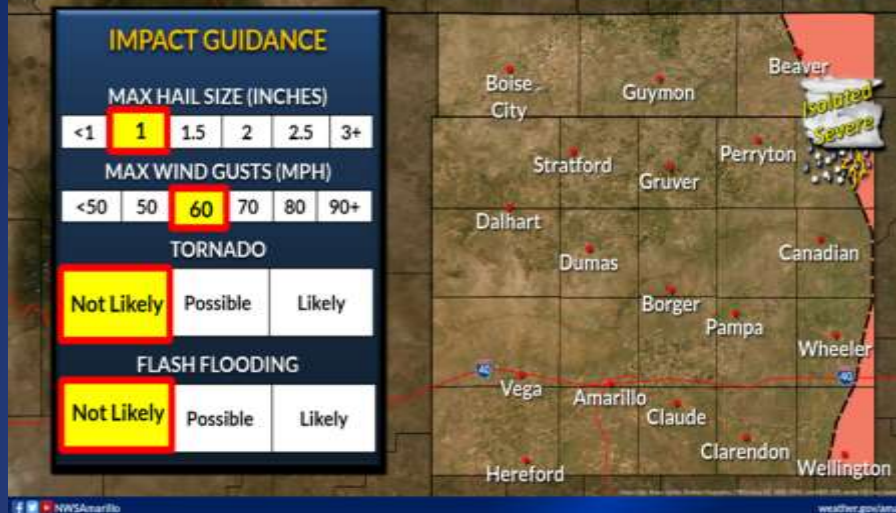

Hazardous Weather

Severe Storms Potential - 4 PM to 8 PM

Isolated Severe Storms Expected

Weather Forecast Office
Amarillo, TX
Issued Apr 26, 2022 3:41 AM CDT

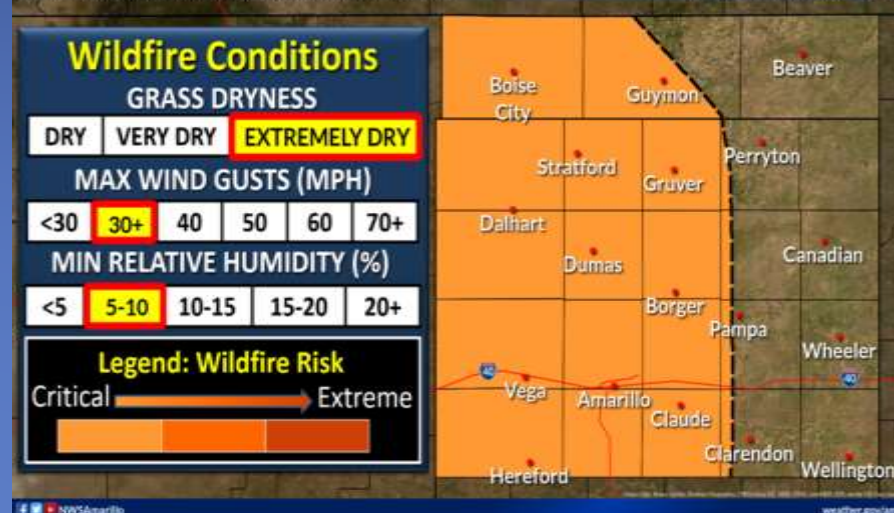

Isolated thunderstorms will be possible this afternoon into early this evening. Storms will have the potential to become strong to severe, with strong winds and hail being the main threats. Any storms that develop will quickly move into western Oklahoma.

Wildfire Risk Today

Please use caution with any outdoor activities which could produce sparks or flames

Weather Forecast Office
Amarillo, TX
Issued Apr 26, 2022 3:27 AM CDT

Breezy and dry conditions in the western and central Panhandles will create a risk for wildfires this afternoon and early evening.

Hazardous Weather

Severe Thunderstorm Potential

Timing: Late Afternoon and Early Evening

Weather Forecast Office
Norman, OK
Issued Apr 28, 2022 12:49 AM CDT

A few severe storms will be possible late Thursday afternoon into the early evening hours. Large hail and damaging wind gusts will be the main hazards.

Thursday Storm Timing

Weather Forecast Office
Norman, OK
Issued Apr 28, 2022 3:15 AM CDT

Isolated thunderstorms may develop late this afternoon along a dryline that will be located across the eastern parts of the Oklahoma and Texas panhandles. If storms do develop they will likely be severe moving into western Oklahoma and north Texas late today a further east across western Oklahoma and north Texas before weakening just after sunset.

Fire Weather Watch Friday

Weather Forecast Office
San Angelo, TX
Issued Apr 27, 2022 5:56 AM CDT

Fire Weather Watch
1 PM to 8 PM Friday

- Winds: Southwest 15 to 20 mph with gusts to 30 mph.
- Temperatures in the mid 90s.
- RELATIVE HUMIDITY... 7 to 15 percent.

IMPACTS... Conditions will be favorable such that if fires develop, they could spread quickly. Burning is therefore discouraged.

NWSSan Angelo

weather.gov/san

Hazardous Weather

Temperatures will be even warmer today peaking in the low to middle 90s. The low level moisture will be shifted across the Rolling Plains late this morning leading to a return of elevated to critical fire weather conditions across the region. A low chance for thunderstorms, some severe, will exist across the extreme southeastern Texas Panhandle and Rolling Plains during the late afternoon hours. Hail up to golf ball size and severe wind gusts up to 70 mph will be possible beneath the strongest storms, though most locations will remain dry.

The severe weather outlook for Thursday, April 28th. Isolated, high-based thunderstorms will be possible this afternoon and evening across the extreme southeastern Texas Panhandle and portions of the Rolling Plains. Some storms may be severe, capable of producing strong to damaging wind gusts up to 70 mph and hail up to golf ball size before thunderstorms diminish late this evening.
